- **Pivot Switchblade:** As soon as it hit the dirt, the Pivot Switchblade started racking up awards throughout the cycling media. Why? Because it's an ultra-light, ultra-capable aggressive trail bike that punches way above its weight class. The only complaint we ever hear? Not everyone could afford one. So we took the same ultra-stiff frame design, the same 135 millimeters of super smooth dw-link® suspension and the same thoroughly modern, long and low geometry... and crafted the Switchblade Aluminum from the most sophisticated, hydro-formed aluminum frame components anywhere.
